Smart Aroma
Diffuser

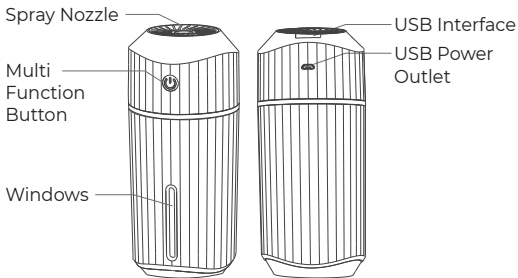

Model No.: iG-1062

Aircare

Aircare is a mini air humidifier with night light function and uses USB charged Built-in battery for power supply. The nano-spray technology is safe and clean. It is suitable for indoor and in-car use.

Operation

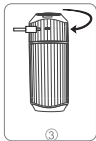

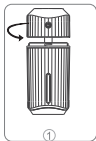

Spray Operation:

Press the Multi Function Button(MFB) to turn on the continuous spray mode. click the MFB again to start the intermittent spray mode (3 seconds spray with 2 seconds interval). Click the MFB for the third time to turn off the spray modes.

Lighting Operation:

Long press the MFB to turn on the lights. Long press the MFB again for gradual change of colors. Long press the MFB for a third time to set a fixed color of the light. Long press the MFB for the fourth time to turn off the colorful light.

Step-by-step usage

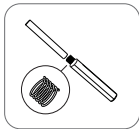

1. Turn counterclockwise to unscrew the upper cover.
2. Fill the base with water and add a few drops of essential oil.
3. Turn clockwise to tighten the upper cover and connect it with the power supply.
4. Click the power button on.

Cotton stick replacement

Pull out the cotton swab tube.
Replace cotton swab.

When replacing, please
pay attention to the
bottom spring.

Attention

1. Please add water before using this product. Humidification function is prohibited in case of water shortage.
2. A small amount of essence can be added to this product. It is recommended to use water based aroma therapy instead of only essential oil, so as to prevent oil from blocking the function of atomizing tablet.
3. When cleaning the product, please do not use water directly for cleaning to avoid the possibility of short circuit. It is recommended to use soft cotton cloth for wiping.
4. Keep out of reach of children.
5. Use a clean rag to clean the dirt on the atomization sheet every ten days. Please replace the Cotton stick in time.

6. Soak the Cotton stick completely in water before use. If the cotton stick is removed, please be careful not to lose it.
7. If you turn on the humidifier and hear a harsh sound, it means that the Cotton stick is not wet. You can take it out and soak it or turn it off and wait for a period of time.
8. If there is no spray, please wait patiently or remove the stick and soak it in water, Do not poke at the atomizing port.
